## **DETAILED ACTION**

This communication is in response to the application filed on 04/03/01
 Claims 1-62 are pending in this Office Action.

## Election/Restrictions

- 2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-42 and 54-62 are drawn to a method for searching a database to increment or deleting until the hash value included in the selected entry, classified in class 707, subclass 203.
  - II. Claims 43-50 are drawn from a data structure, classified in class 707, subclass 100.
  - III. Claims 51-53 are drawn from a system for managing Internet Protocol Security, classified in class 709, subclass 230.

The inventions are distinct, each from the other because of the following reasons: Inventions in Groups I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in Group I has separate utility such as a method for searching a database to increment or deleting until the hash value included in the selected entry. See MPEP § 806.05(d). Invention in Group II has separate utility and requires a data structure. And invention Group III has separate utility and requires managing Internet Protocol Security is different from Group I and II.

Application/Control Number: 09/845,432

Art Unit: 2167

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purpose as indicated is proper.

A telephone call was made to Attorney. Scott Moore (Reg. No. 42,011) on February 09, 2005 to request an oral election to the above restriction requirement and the representative request for written restriction.

Applicants are advised that the reply to this requirement to be complete must include and election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors in no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

## **Contact Information**

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mohammad Ali whose telephone number is (571) 272-4105. The examiner can normally be reached on Monday-Thursday (7:30 am-6:00 pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John E Breene can be reached on (571) 272-4107. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
